It is great and fantastic. It can be written in easy phrases and never hard to understand. You will not really feel monotony at any time of your respective time (that's what catalogues are for concerning if you request me).

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Current Research, Future Directions | Is this book boring? Of course it is! After all, this is a scholarly research study. But here's why you should buy this book anyway: If you are a psychologist, psychiatrist, physician, nurse, counselor, therapist, pastor, chaplain, social worker, or a student of any of these disciplines-or anyone else that aspires to work with the human condition-then you need to know the neglected connection between religion, spirituality, and coping. Current professional standards require "best practice" and "evidence-based" services. Current ethical codes mandate "cultural competence" and attention to "diversity." None of these demands for professionalism is met when we ignore-whether willingly or otherwise-the coping methodologies of our religious and spiritual clients. In short, this scholarly work accomplishes three major feats: (1) Reviews decades of research on religious / spiritual coping. (2) Examines religious / spiritual interventions with scientific rigor. (3) Draws conclusions and makes concrete recommendations based on these findings. This book is a "must have" for your professional library! | Format: Paperback | Language/Sprache: english | 120 pp.
