Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. End the confusion! God s people have been sold a bill of goods. If you think about it at all, evolution could not be true. If this young earth is really billions of years old, then God is a liar. You know that isn t true. This book tells the tale of God s creation lovingly, by a man who only recently came to his senses. It had been obvious when he visited the Grand Canyon that this hadn t happened over countless millennia. It had happened quickly with a massive flood of water. God made man. We didn t come from apes. The first two chapters of Genesis make excellent scientific sense when you understand how God did it and why He did it in the order it was done. It s amazing how clear it is when a believer explains how it works. Join David on a glorious trip through the 7,000 years of creation. Yes, there is only one millennium left for this one. Then this training place is dissolved in fire and replaced with what we commonly call heaven. God calls it a new creation. Rejoice in the glory of what He has done for us!.
