What would a person say, the chances of this world being assembled by random (without intelligent design) and all debris landing in a precise position, with everything programmed for the precise purpose of supporting guess what, intelligent beings! And some say creation is a theory of blind faith!!! Nobel prize winner for astronomy, Sir Fred Hoyle calculated the odds against a simple functioning protein molecule originating by chance, in some primordial soup being equal to: filling the solar system with blind men, each with a Rubiks cube, expecting them to get the right solution all at the same time! The Significance of Essence discusses the concepts of this intelligent designer, of which He addressed to; each and every person born on the earth, who are all made in His image, which causes them to be eternal beings, spending eternity in one of the two choices, (in or out) of His presence, determined by the choices one makes while on earth.
