ELEMENTARY CONICS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Elementary Conics The present issue contains the first eight chapters of Conic Sections treated Geometrically, the ninth edition of which was published in 1895. These chapters practically cover the ranges of many examinations, such, for instance, as the Higher Local Examinations and some of the Civil Service Examinations, and also cover, in the majority of cases, the extent of reading in Conics which the young student is likely to undertake, and which may be wanted for work in schools. It is therefore hoped that a small and inexpensive book may prove to be useful and attractive to many students who may desire to acquire a knowledge of Elementary Conics, and for whom the higher regions of thought which are dealt with in the later chapters of the Geometrical Conics may have no practical value. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
