Brand New Book ***** Print on Demand *****.Excerpt from Annual Report, Vol. 2: National Institute of Neurological Disorders and Stroke The National Institute of Arthritis, Diabetes, and Digestive and Kidney Diseases is 1 of 11 Institutes known collectively as the National Institutes of Health (NIH), the largest biomedical research organization in the world. On its 306 acres of land in Bethesda, Md., NIH incorporates hundreds of sophisticated research laboratories, clinical care facilities, administrative offices, and a national medical library - all dedicated to fulfilling the agency's role as spearhead of the Nation's biomedical research effort. Over the years, NIH programs and activities have multiplied to meet the ever-growing demand for knowledge about health and disease. To accommodate varying research needs and facilitate progress, each of the 11 NIH Institutes functions as a separate administrative unit within which research activities in one or more disease areas or health problems are planned, coordinated, carried out, and supported. NIADDK's emphasis on research to uncover the causes of chronic and disabling diseases has earned it recognition as an Institute whose responsibilities are attuned to the...
